

## SC-F400 | Auto Feed - Lamination Machine

Single-Sided Hot Film | Paper Tilt Correction

Heating Method	Electronic Heating
Pressure Drum Diameter	105mm
Coating Temperature	10~120°C
Paper Thickness	125g~400g
Core Diameter	1in/3in
Heating Time	5~8 Minutes
Coating Speed	1mm-5mm/min
Maximum Film Width	340mm
Anti-crimp Function	Pull-up Anti-Curl
Breaking Function	Automatic Breaking
Trimming Function	Automatic Trimming
Working Voltage/Power	5.5A - 220-240V - 50-60HZ
Humidity	20%-80%
Pressure Mode	400 spring pressure / 450 oil pressure

Resistive Touch Screen

Electronic Temperature Control

Dotted Line Function

Suction Automatic  
Paper Feeding
